GARTH MORAN, Mayor

ATTEST:

WANDA BURKE, City Secretary

THE STATE OF TEXAS *
COUNTY OF ANDERSON *
CITY OF ELKHART *

On this the 12th day of August, 1991 a public hearing was held at the First Congregation Methodist Church Fellowship Hall. The following persons were in attendance: Mayor Garth Moran, Alderman Raymond Dunlap, City Secretary Wanda Burke and Austin Watson. This was the first of two public hearings to be held as required by State law in order to submit an application for a Texas Community Development Grant Application. The purpose of this first hearing is to discuss with you the housing and community development needs, the amount of TCDP funding available, eligible TCDP activities, and the use of past TCDP contract funds. Also, if requested, we will provide technical assistance to groups representative of persons of low and moderate income in developing proposals for use of TCDP funds. After obtaining your views and proposals at this public hearing, a second public hearing will be held to discuss the proposed project, the amount of funds being requested, the estimated amount of funds proposed for activities that will benefit low/moderate income persons, and the plans to minimize displacement as a result of activities assisted with TCDP funds, if applicable. The goal of the Texas Community Development Program is the development of viable communities by providing decent housing and a suitable living environment and by expanding economic opportunities, principally for persons of low and moderate income.

The four objectives of the Texas Community Development program are: 1) To improve public facilities to meet basic human needs, principally for low and moderate income persons. 2) To improve housing conditions, principally for persons of low and moderate income. 3) To expand economic opportunities that create or retain jobs, principally for low and moderate income persons. 4) To provide assistance and public facilities to eliminate conditions hazardous to the public health and of an emergency nature. In terms of eligible activities, all proposed activities must meet at least one of the three national program objectives which are a part of the Federal Housing and Community Development Act, which was passed by Congress in 1974, an initially authorized the monies for this program. The three national program objectives are: 1) Benefit low and moderate income persons. (At least fifty-one percent (51%) of the identified beneficiaries must have a family income of less than 80% of the area median income.) 2) Aid in the prevention of elimination of slums and blight. 3) Meet other community development needs of particular urgency which represent an immediate threat to the health and safety of residents of the community.

000205

There are certain activities that this money may not be used for. In general, any type of activity not described or referred to in the Federal Housing and Community Development Act of 1974 is ineligible for consideration for funding. Specific activities which are ineligible under the Texas Community Development Program include: A) Construction of buildings and facilities used for the general conduct of government, such as City halls and courthouses. One exception is improvements made to these buildings solely to provide complete access for handicapped individuals, which is an eligible TCDP activity. B) New housing construction, except in cases of replacement housing when individuals are displaced by TCDP funded activities. C) The financing of political activities. D) Purchase of construction equipment. E) Income payments, such as housing allowances. F) Most operation and maintenance expenses. I call your attention to the pages in the packet we provided you entitled "Eligible Activities" (pages 3, 4, 5, and 6). This lists the eligible and ineligible activities under the different types of improvement projects. As you can see, there are specific activities which can and can not be done. I might also add, in addition to these traditional public work projects, these funds can be used for park and recreation improvements and storm drainage improvements. The way this program works is that once the application has been developed, written, and submitted, the application will be scored. Based on that numerical score, a ranking of projects within this region will occur. Based on the amount of funds allocated to this region, the numerical scores will produce a rank order, and from that rank order the State will develop the ranking order list and fund the most highly ranked projects until the funds have been exhausted. The amount of funds available in this region is \$2,231,370.00. The scoring system used is two step. First, The regional Review Committee (which is made up of 12 local elected officials appointed by the Governor from the region) scores selection factors related to project design. Secondly, the State scores the application related to community distress, benefits to low/moderate income persons, minority hiring, project impact, and local match. The sum of the two scores results in the total score and it is that score that is used to rank this project.

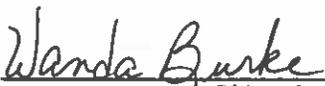

Our past TCDP Contract funds have been used for Sewer Projects, Planning Grants.

If there are no further comments or questions regarding the program, the public hearing is closed. Thank you for your attendance.

On this the 19th day of August, 1991 a public hearing was held at the Elkhart City Hall. The following persons were in attendance: Ragen Holmes, Johnnie L. Ricks, Ben H. Milam, Faye Teel, Earnest Teel, Mrs. J. D. Johnson, Raymond Dunlap, Devoin E. Garrison, Earl Jenkins, B G Moran, Wanda Burke, Ronny Steadman, Aline Buckhanan, Darleen Starr, George Crawford, Ruby Crawford, Swany Walker, Mitchell Carnes, Lee Bridges and Darrell Jones. This is the second of two public hearings that are required by State Law in order to submit an application for a Texas Community Development Grant. the purpose of the first hearing was to solicit your views and comments concerning the possible uses of grant funds should they be obtainable. Please be sure to sign the attendance list, including your address and telephone number.

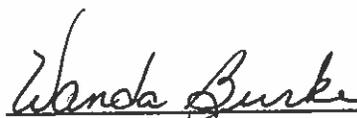

This second public hearing is to present to you the project that has been developed as a result of citizen participation at the first hearing. After the project is presented to you today, we will again ask for your comments and questions regarding the proposed project. The project developed are as follows: First time sewer service located on 287 North.

If any of you have questions about either the TCDP program or the proposed project, I would be glad to answer any questions. I think the best way would be to recognize each individual who wishes to speak separately and give that person a reasonable amount of time to speak. So at this time if you would please stand and, before you make your comments, identify who you are.

If there are no further comments or questions regarding this application or projects, the public hearing is closed. The public hearing closed at 5:20 p. m.

COUNTY OF ANDERSON

*

CITY OF ELKHART

* IN CITY COUNCIL MEETING,

May 18, 1992 that the bids on the Water Plant Improvement were opened by McO Johnson with the first bid to be opened was Control Specialist from Roanoke, Texas. I take exception to the bid. Bid bond is a copy that was faxed to my office to get the amount up to the cover it. The other Bid bond is a original signature document and the Power of Attorney is an original signature document. I would like this noted and give to Charlie Nichols, City Attorney to review it or to decide whether to disregard it or not. With you permission I will go ahead and read the bid - Amount \$367,000.00 as specified. Based on proposed alternate exceptional material \$374,000.00. Bid #2 is from McKinney and Moore, Jacksonville, Texas. There is a bid bond with a Power of Attorney. The amount of \$179,404.00 is the bid. These are the only bids we have received. I would like to tabulate the bids and then get the City Attorney to tell us what to do about the one whether to disregard and then meet back with Council at their convenience.
