

Revised Total Coliform Rule (RTCR) Failure to Report Monitoring Events to the State that are Not Related to *E. coli*-positive Sample Results – Template 3-

5

**IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER**

**Reporting Requirement(s) Not Met for**

**CITY OF ELKHART PWS 0010005**

We are required to report the results of monitoring of your drinking water for specific contaminants on a regular basis by JULY 2022, MAY 2016. Results of regular monitoring are an indicator of whether, or not your drinking water meets health standards. During JULY 2022, MAY 2016, we did not report the results of monitoring for total coliform.

Our system failed to notify the state drinking water program as required by JULY 2022, MAY 2016. Although public health was not impacted, as our customers, you have a right to know what happened and what we did to correct the situation.

**What should I do?**

There is nothing you need to do at this time. You do not need to boil your water or take other actions.

**What is being done?**

In order to return to compliance, we collected distribution samples and sent the results to TCEQ on 08/09/2022 and 06/06/2016 per our corrective action.
